Summary

I'm passionate about front-end development, specializing in converting Figma designs into responsive web templates. Using React.js, I craft visually stunning and highly functional websites that prioritize user experience, ensuring they look great and perform flawlessly across all devices.

Featured Project

Gourmet-Gril Multi Page Web Site

React js | Tailwind Css | GSAP | Context Api

This restaurant project features an intuitive search function, seamless add-to-cart capability, user authentication, and engaging animations, creating a delightful and efficient dining experience for users.

More Challenges

- Live Search Functionality
- Add to Cart Functionality
- Authentication
- Live profile picture upload
